

ISLAND PACKET FACTORY REFIT PROGRAM

Island Packet Yachts is known for building the strongest, most durable yachts able to cross any ocean in comfort and style. Built by our factory team of craftsmen that are the best in the industry, Island Packets have been proven time and time again as "America's Cruising Choice."

On any vessel, however, there are components that age with time and the many nautical miles traveled. Thus, we are pleased to offer our Dealers and Owners a Factory Refit Program that meets the high standards of the Island Packet name. The refit work will be performed by the talented craftsmen in the same factory where the boats are built. All refits will include warranties on systems installed for a period of 1 year.

The following are some examples of various areas of opportunity for refit:

- ★ **Above Deck:** New sails, standing rigging, running rigging, and deck hardware. New life lines, repair/replace gates and stations. Replace chain plates. Strip and repair all teak bright work on exterior or replace with composite product. Buff/polish deck and hull or paint deck and hull.
- ★ **Cockpit:** All new electronics (customer's choice as to model/brand). New cockpit cushions, helm seat/backrest. New dodger/side curtains and bimini with connector. Cleaning and repainting of all storage areas underneath cockpit seats and in lazarette. Custom arches.
- ★ **Interior:** Fresh varnish on all interior surfaces. Inspect and repair galley fridge/freezer. Upgrade to any galley appliances. Replace all plumbing to galley sink and new water pump. Options to upgrade to Corian counter tops. Upgrade all interior lighting to LED. Replace heads and inspect all lines and plumbing. Refinish or replace existing sole with veneer or solid wood.
- ★ **Sub Floor:** Replace holding tanks, replace hoses and inspect all aspects of the wiring in the floors. Replace and inspect all thru hulls, bilge pumps.

The above is in no way a complete list of the possibilities. We can customize any refit to meet your individual needs and will set up a personal consultation. The following are the 3 Refit Categories:

1. **THE CIRCUMNAVIGATOR REFIT (\$100,000 +)**

This package involves an extensive overhaul of the vessel and is an excellent option for someone wishing to take their boat around the world with all the most current of technologies available. Clients spending \$100,000 or more will receive a 10% discount on the entire refit.

2. **THE ISLAND HOPPER REFIT (\$50,000-\$99,000)**

Customer choosing this refit option will receive a 7.5% discount on parts.

3. **COASTAL REFIT (\$10,000-\$49,999)**

Those spending \$30,000-\$49,999 will receive a 5% discount on parts.
